We have never had TB, are all of good health. They live out all year round, with only hay/silage in the winter months. They've never been hard fed, so are ideal low maintenance and easy calving cattle. The calves at foot are all Birth notified with the Belted Galloway society so can be registered. We have a new blood line in two females, and 4 calves. The bloodline is Du Rapide Sherwood, from Canada. These are the first of this bloodline in the UK.

She is back in calf to a prominent Belted Galloway bull who has himself sired many show winners and champions.

Duchess is a stocky well framed animal, she lost her first calf (through no fault of her own). She carries a strong red gene, and is sired by a new blood line to the UK, these heifers are the first available in the UK by this sire. She also carries the Mochrum line.
Du Rapide Sherwood is a Canadian bull, from the bloodlines of Hide-a-way Major Red. They carry a strong red gene and have produced some wonderful fast-growing animals.

Moyna is the matriarch of our herd, she has produced great calves while with us. She has had no issues calving, and produces well marked and fast-growing offspring.
She is also halter broken and has been shown successful at the Royal Three Counties and Royal Pembrokehire show. She is a calm and sensible animal, with great genetics.

It wouldn't take a lot to break this cow to halter.
She has her bull calf at foot by our home-produced bull Newgrove Robin Hood, who is by Du Rapide Sherwood (New Canadian Genetics). BN08282

Dam : 24408 - Cunnigar Blossom (UK749071/700001)
Remarks : Running with Shelsleys Samuel - 06265
A friendly heifer with a great character. She is a well fleshed animal, and would easily be broken for the show ring. She has had a halter on and lead several times. She will happily have a scratch in the field and follow you round. She did produce a calf in January however we lost the calf (through no fault of her own). She is a very mothering animal, and would easily go onto breed again.
